## Clinical Trial Recruitment

### Clinical trial recruitment

Continue to recruit for two NIH studies, Clozapine trial and BICEPS study.

The CfSC currently has two active trials:

1. The **Stimulation During Sleep** pilot study has enrolled 71 participants, with 27 having completed the study so far, and we are actively recruiting individuals with schizophrenia.

2. The **Sleep and Emotions** study, supported by K23 funding, has enrolled 136 participants, with 30 having completed the study to date, and we are actively recruiting healthy control participants and individuals with insomnia disorder.

Recruitment, treatment, and follow-up outcome assessments have been completed for the PCORI Comparative Effectiveness Trial of group-based interventions to improve social and community functioning of persons with schizophrenia-spectrum disorders.
