

Department of Emergency Medicine

Research Highlights

New JAMA Perspective on Global Pandemic Preparedness

In a new perspective published in JAMA, **Gregory Ciottone, MD**, and colleagues examine the recent MV Hondius hantavirus outbreak and what it revealed about gaps in global pandemic preparedness, emergency response coordination, and international health systems. Read more [here](#).

Emergency Medicine Research Featured at SAEM

Congratulations to our Emergency Medicine faculty, fellows, residents, and trainees who represented BIDMC at the **2026 Society for Academic Emergency Medicine (SAEM) Annual Meeting** in

Atlanta. Through plenary, oral, lightning oral, and poster presentations, our department showcased innovative research that is advancing emergency medicine and improving patient care.

New JAMA Network Open Publication Advances Diagnostic Safety Research

Congratulations to **Adrian Marks, MD**, **Sean Gibney, MD**, and collaborators on their publication in JAMA Network Open, Screening for Missed Opportunities for Diagnosis in the ED Using eTriggers and Large Language Models. This work represents an important step toward scalable approaches to identifying diagnostic safety events and improving health system learning.
